

Hovstunnilin, road tunnel

Faroe Island

Description:

Construction of road tunnel between Øravík and Hov in Suðurøy Faroe Islands. The tunnel is two lane, 2.5 km long. The tunnel is a T 9.5 cross section according to the Norwegian tunnel classification system. The dimension of the tunnel is 6.42 m height at the center line of the road, 9.5 m wide at the road base. The tunnel will replace a one lane road between the towns.

Key quantities:
